

# 10 Tree Choices and Placement

Simple guidelines for shade and street trees

- Arbor Day Foundation

So, How do we Maximize Climate Benefits of Trees?

1. Maintain what you have!

- Minimize forest loss
- Improve/maintain tree health

2. Species may matter...but

- Site conditions, management, and health could be even more important!

3. Plant the right tree in the right location!

- Trees of all sizes can have important climate (and biodiversity) benefits
